

Qualities of Truly Successful People

Truly successful people come from every walk of life. They may have been born into wealth or poverty, sickness or health, Communism or Democracy, hatred or love. Regardless of where they started, they utilized what they had. They refused to sit back and believe the world owed them something. Successful people know the importance of being kind to others, giving the "extra effort", making wise decisions, and recognizing what they have instead of dwelling on what they don't have.

Listed below are qualities of successful people. In this self-evaluation, rate yourself on a scale of 1-5. A 5 is very much like you and a 1 is not at all like you. Be honest with yourself. Circle your rating on each set of qualities.
